Professional Summary

Computer Science undergraduate specializing in Data Science with skills in Machine Learning, Data Analytics, Python, Java, SQL, and Data Structures Algorithms. Passionate about building AI-driven solutions and solving real-world problems through technology.

Education

Maharana Pratap Engineering College

B.Tech in Computer Science & Engineering (Data Science) — CGPA: 7.23/10

Kanpur, Uttar Pradesh

Aug. 2023 – Aug. 2027

BNSD Shiksha Niketan Inter College

Intermediate (UP Board) – 88%

Kanpur, Uttar Pradesh

2023

Skills

Languages: Python, Java, C, C++, SQL

ML & Data: Machine Learning, EDA, Data Preprocessing, Predictive Modeling, Regression, Classification, Random Forest, Pandas, NumPy, Matplotlib, MS Excel

Web: HTML, CSS, JavaScript

Databases: MySQL **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks

Soft Skills: Problem Solving, Analytical Thinking, Leadership, Team Collaboration, Adaptability

Experience

Data Analytics Intern — CodeAlpha

Jun 2026 – Jul 2026

Remote

- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) on structured datasets using Python, Pandas, and NumPy to extract actionable insights.
- Developed data visualizations and analytical reports using Matplotlib to identify trends, patterns, and support data-driven decision-making.
- Completed Data Visualization, Sentiment Analysis, and Titanic Exploratory Data Analysis (EDA) projects by applying statistical analysis, feature engineering, and machine learning fundamentals.

Projects

AI-Powered College Placement Intelligence System | Python, Machine Learning, Streamlit

GitHub

- Built a machine learning-based placement prediction system using academic and skill-based data to predict students' placement opportunities.
- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, and model training using Python and Scikit-Learn.
- Achieved **78.95% accuracy** using Logistic Regression and deployed the application with Streamlit for real-time predictions.

CodeAlpha Data Analytics Internship Projects | Python, Pandas, NumPy, Matplotlib, Scikit-Learn

GitHub

- Developed Titanic Exploratory Data Analysis (EDA), Placement Dataset Analysis, and Sentiment Analysis projects using Python.
- Performed data cleaning, preprocessing, missing value handling, visualization, and statistical analysis to extract meaningful insights.
- Applied NLP techniques for text preprocessing and sentiment classification.

Certifications

- IBM Python for Data Science
- Data Science Internship Certificate – CodeAlpha
- HackerRank Python (Basic) & SQL (Basic) Certificates
- Generative AI Camp – AlgoUniversity
- Machine Learning Workshop – AKTU

Achievements

- Participated in **Smart India Hackathon (SIH) 2025**.
- Solved **750+ DSA problems** across LeetCode, HackerRank, and CodeChef with a **1500+ CodeChef rating**.
- Earned **5-Star** badges in **Python** and **C++** and a **4-Star** badge in **C** on HackerRank.
- Earned the **CodeChef 50 Days Coding Streak Gold Badge**.
